Enemy Blamed for Disease Among

Argentina Animals.

Special Cable Despatch to The Six.

London, March 17.—The latest form of German activity in South America and one that is likely to have important effects in Argentina is the inoculation of army horses sold to Great Britain with glanders. This disease, heretofore unknown in Argentina, is now likely to affect the population there, and cause the demobilization of the Argentine cavalry.

The disease already has been captied to the bill.

The matter will be brought up in the Senate Committee on Military Affairs at once. Members of that committee, smarting under the suggestion of delinquency in this exceedingly simple toling, stated to-day that the question of the necessary legislation would be one of the first matters brought to the attention of the committee upon the return to duty of Chairman Chamberlain, who has been recuperating from a surgical operation. Senators Wadsworth (N. Y.), McKellar (Tenn.), New (Ind.) and Weeks (Mass.) of the Military Affairs at once. Members of that committee, smarting under the suggestion of delinquency in this exceedingly simple toling, stated to-day that the question of the necessary legislation would be one of the first matters brought to the activation of the first matter prompt to the senate committee. speedy consideration of the bill.
